

### Priority Updates

**Big Persons Offshore (BPO)**

OEUK have commissioned a specialist consultant and chartered statistician to review the 2022 BPO data. The HSE plan to redraft OIS 12/2008 and OEUK will re-issue the report and hold a workshop to present undated findings in August.

**Process Safety Leadership Principles (PSLP)**

The next in our series of PSLP Workshops was held in June at the NZTC with the theme of Contractor Collaboration, where we had speakers from ECITB, contractors, and workshopping on how installation risks can be easily shared within the contractor community.

**Extreme Weather**

Following OEUK and HSE workshops on severe weather, and the HSE's letter regarding Severe Weather Action Plans (SWAP), our next workshop examining the effects of extreme weather on offshore structures will be held in September.

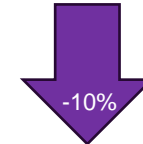

### Stats at a glance

(Q4 2023- Q1 2024)

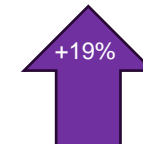

**Hydrocarbon releases Q1**

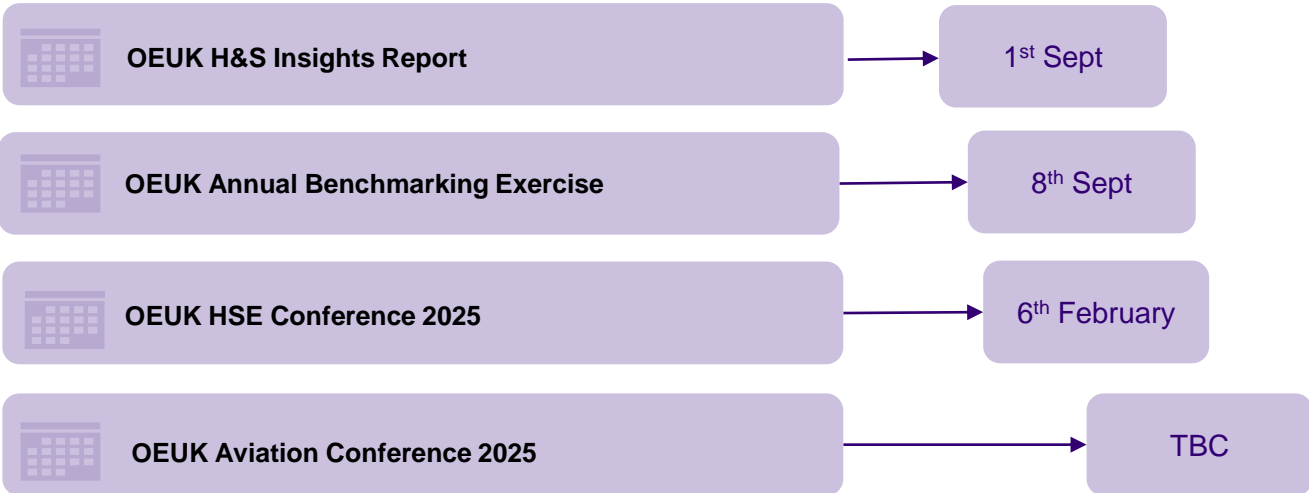

**All personal injuries Q1**

**Safety Critical Maintenance Backlog**

### Upcoming Events

### Task Finish Groups Overview

**Task Finish Group (TFG)**

**Update**

**Looking forward**

**Risk-based Decision Making TFG**

- Group governance established
  - External document review completed
  - Update requirements identified
  - Guidance currently being drafted
- Draft to be completed
  - Consultation to be initiated
  - Publication

**Maintenance Backlog Reduction Plan TFG**

- Group governance established
  - Document requirements identified
  - Guidance currently being drafted
- Draft to be completed
  - Consultation to be initiated
  - Publication

**Safe Isolation & Reinstatement of Plant TFG**

- Document Completed
  - Approved by Task Finish Group
  - Out for consultation with H&S Operators
- Consultation to be completed
  - Publication

**Vent & Flare TFG**

- Document Completed
  - Approved by Task Finish Group
  - Consultation with H&S Operators complete
- Publication

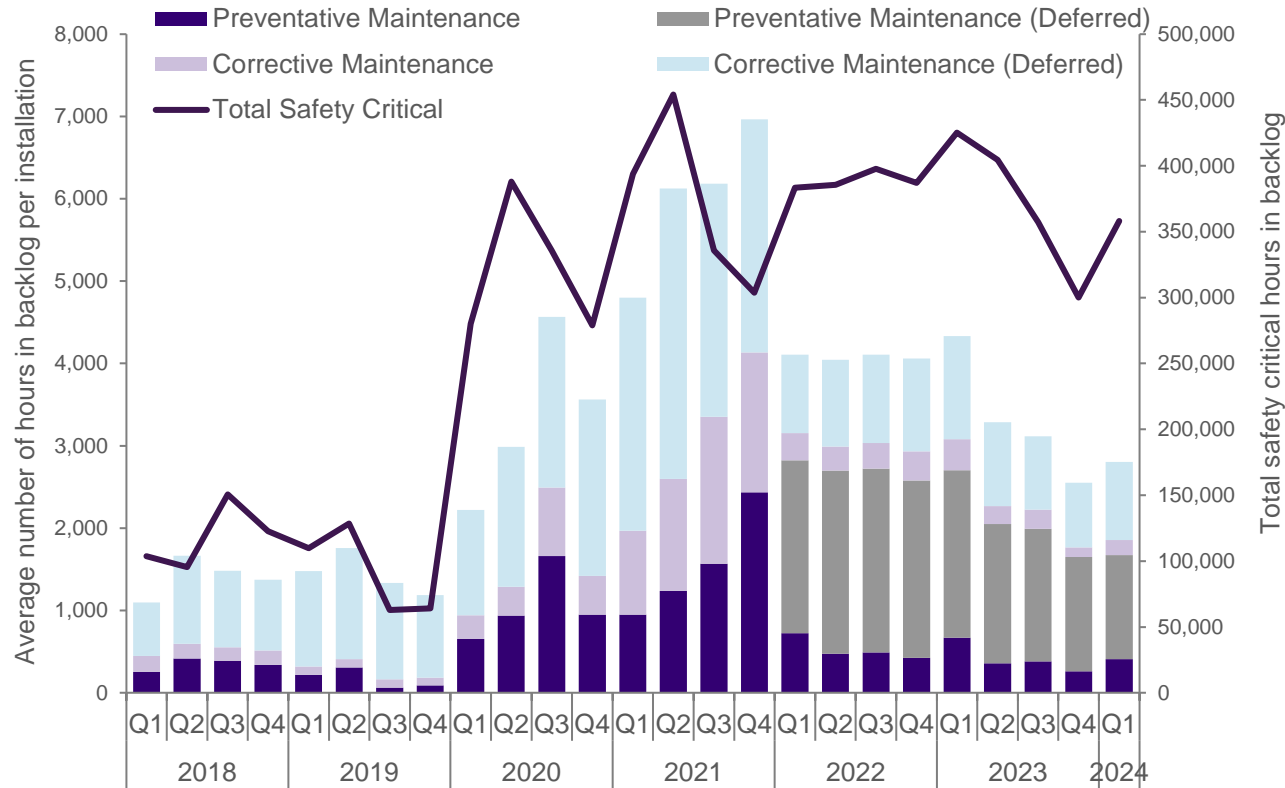

**Cumulative Risk TFG**

- Group governance established
  - External document review completed
  - Update requirements identified
  - Guidance currently being drafted
- Draft to be completed
  - Consultation to be initiated
  - Publication

**Water Management TFG**

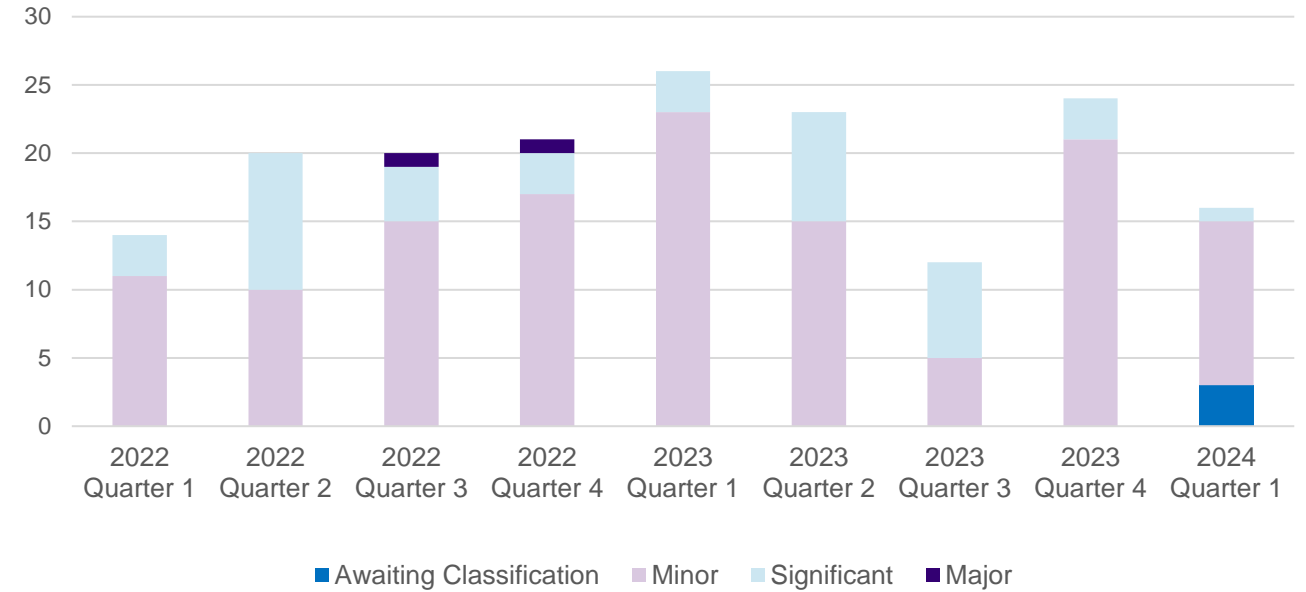

- Document Completed
  - Approved by Task Finish Group
  - Consultation with H&S Operators complete
  - Being prepared for publication
- Publication
