energies.**

Who we are, what we do.

“OEUK is the leading representative body for the UK offshore energy industry, a not for profit membership organisation with a history stretching back five decades. Our vision is for a thriving UK powered by homegrown, affordable energy which is produced safely and sustainably. Our members boost the UK economy, unlock rewarding jobs and drive innovation. We do this by engaging, informing and championing the sector and its people. We work with our members to deliver the UK’s energy needs”

David Whitehouse, CEO

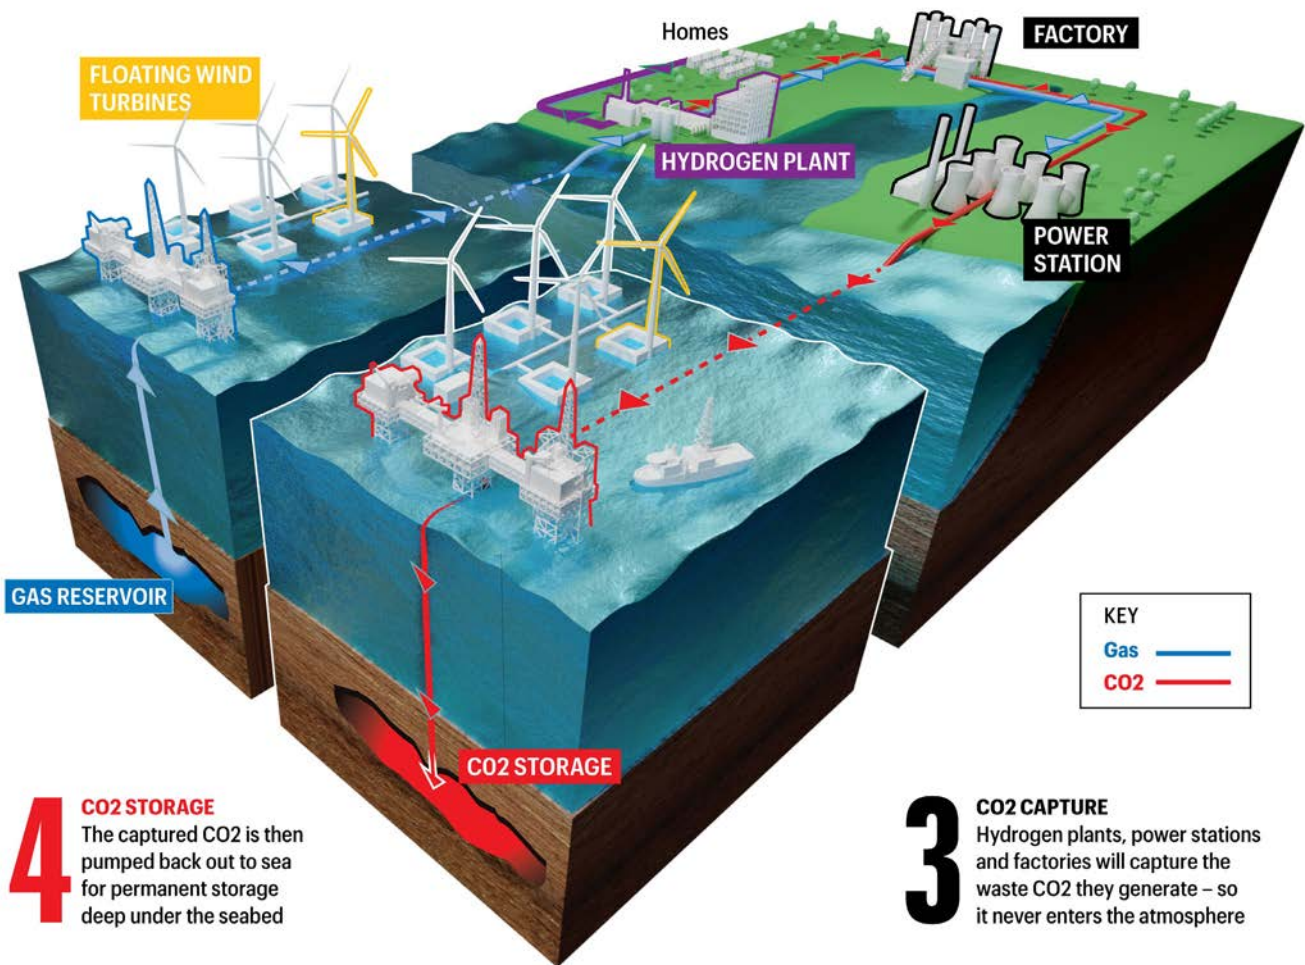

oeUK

We represent

The integrated offshore energy sector

1 ELECTRIFICATION
Floating windfarms will power the rigs used to extract oil and gas and bury CO2

2 HYDROGEN PRODUCTION
Natural gas is pumped ashore and broken down into hydrogen, for heating homes or powering vehicles, plus waste CO2

4 CO2 STORAGE
The captured CO2 is then pumped back out to sea for permanent storage deep under the seabed

3 CO2 CAPTURE
Hydrogen plants, power stations and factories will capture the waste CO2 they generate – so it never enters the atmosphere

Delivering a thriving UK powered by homegrown energy that's produced safely and sustainably.

The offshore supply chain:

UK energy operators rely on hundreds of other firms for equipment and services

1

Aviation contractors transport people and equipment

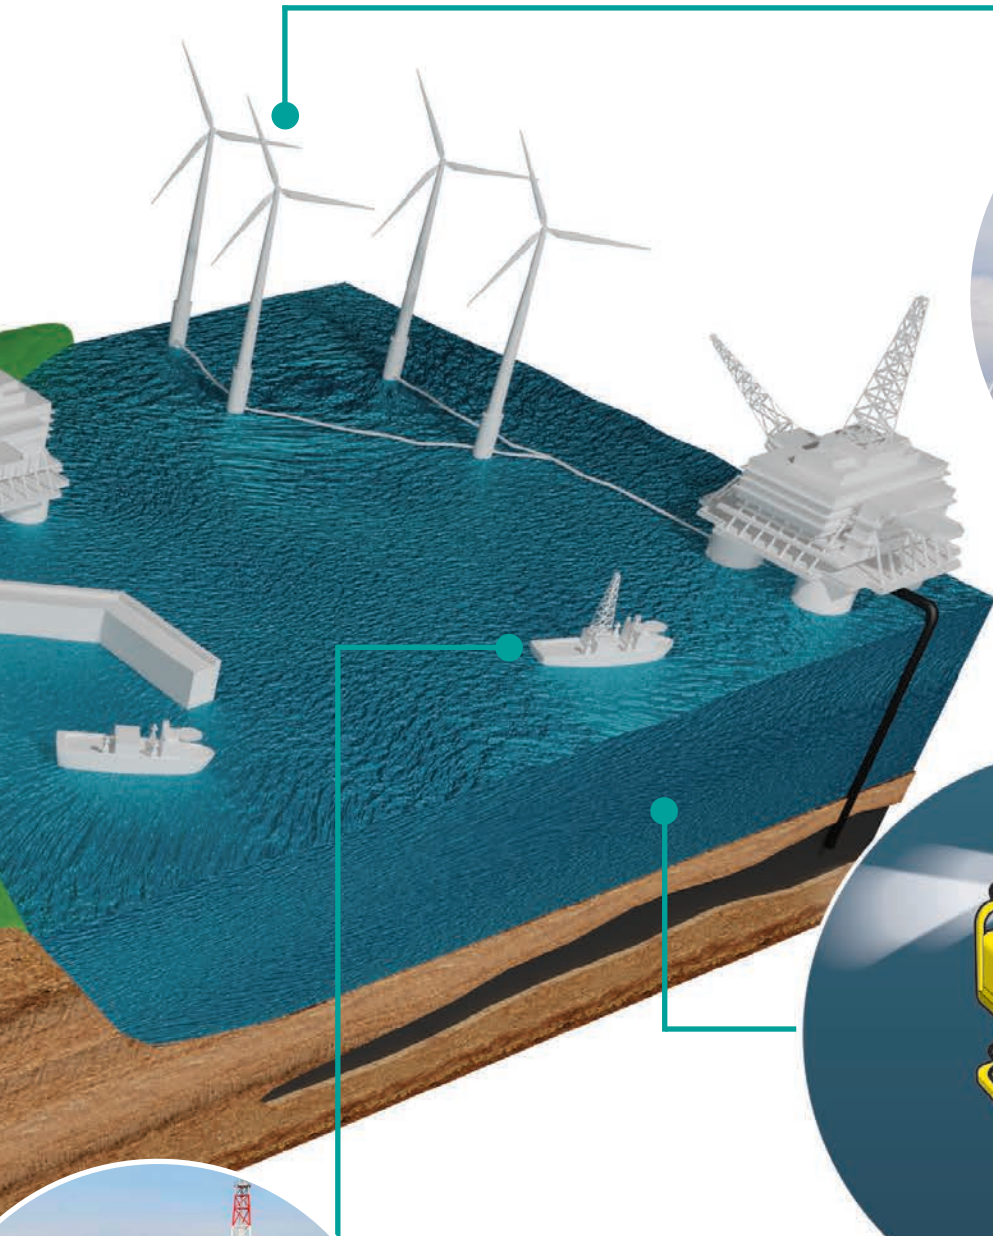

5

Pipes, cables and other vital kit comes from offshore contractors

2
Wind energy
contractors build
turbines on shore

4
Support vessel
contractors ferry kit
and supplies offshore

3
Subsea contractors
maintain underwater
equipment

Our energies:

An integrated offshore energy sector

Oil and gas

With more than a fifty-year legacy of supporting the UK offshore oil and gas industry, oil and gas is not just at the heart of achieving net-zero, it is at the heart of our business at OEUK.

In all energy scenarios, oil and gas will continue to play a role in providing secure energy supplies. Our work is as vital as ever as we look to continue producing the oil and gas the UK needs, efficiently and with production emissions as low as possible, while working with others to cut the emissions from the use of oil and gas.

We are the go-to association that speaks on behalf of the UK offshore oil and gas industry, working across all stakeholders, members and with Government. OEUK continues to champion best practice and progressing initiatives for the benefit of industry, most recently the North Sea Transition Deal.

The UK offshore oil and gas industry is in our DNA, with our unique history of supporting the UK North Sea over five decades.

Wind

Offshore wind has a critical role to play in the UK's future. Electrification of offshore oil and gas facilities presents an exciting opportunity to reduce the carbon footprint of the UK's energy production, helping us all to take big steps towards a net-zero future.

Current plans under consideration could involve rewiring the North sea, building power networks that connect offshore production platforms to the national grid, working on synergies with offshore wind infrastructure to meet increasing demand.

To have a meaningful impact, we need to move at pace and see electrification up and running in the next five years. This challenging task will require collaboration like never before; uniting the power sector, the oil and gas sector and the national transmission system and regulatory frameworks and seeking synergies with wind farm developers and technology innovation.

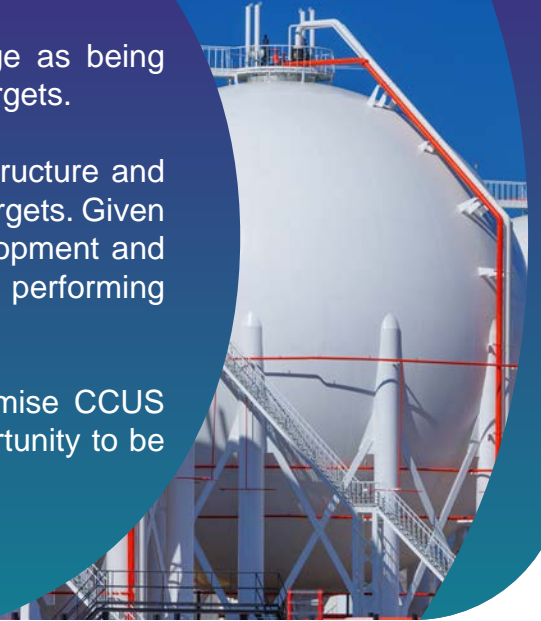

CCUS

The UK Government recognises Carbon Capture and Storage as being crucial for the success of the UK achieving its net zero targets.

Our members are leading the way in developing CCUS infrastructure and storage facilities at scale in order to support and achieve these targets. Given the scale of the challenge, significant investment, policy development and commercial frameworks are required, supported by businesses performing at their optimum efficiency.

The UK Continental Shelf is a basin well positioned to maximise CCUS technology, with huge capacity for storage there is a real opportunity to be grasped with collaborative action and coordination.

Hydrogen

As hydrogen continues to emerge, we support our members that are actively working on hydrogen production as well as those that are moving into this important area of growth.

Our membership represents a skilled, diverse and broad supply chain. Many of our supply chain companies are already working across the range of energies that we represent in various ways. It is crucial that they continue to benefit from our experience in best practice, standards and the access to knowledge via our networks, forums and events.

Expertise in liquification, shipping and pipelines make hydrogen a complementary fit and an area where the expertise and resources at OEUK can be shared for maximum benefit.

Join our membership

Looking for all the latest insights and expertise in the sector?
Keen to expand your network and extend your reach?

Our members benefit from value adding insights, targeted networking, profile raising opportunities and reduced costs for OEUK events. We work closely with you to understand your business goals, providing tailored support to help you maximise your membership.

1. Raise your profile

Members can reach a wide audience by sharing their news and case studies on OEUK's website, social media platforms and in our quarterly magazine. Members also enjoy discounted rates for advertising in our magazine and can take advantage of profile raising opportunities through supporting our engagement with media and politicians across the UK. With over 70,000 followers online, members articles can reach a big audience.

2. Discounts at our events

Become a member and get 35% off tickets to our events and member-exclusive exhibition rates. Our events inform peers with unique insights, educate on key issues and provide valuable networking opportunities with key political figures, senior business leaders, and innovative companies from every sector of the industry.

3. Free industry guidelines

Our members are able to download from our library of industry guidelines free of charge, with topics ranging from safety and operations to environmental impact and decommissioning.

4. Member-only access to exclusive forums and workgroups

You'll be encouraged to represent your organisation at our member-only forums and workgroups, where you can contribute to important industry discussions and participate in response to key issues. Our groups connect you to an unrivalled peer network comprised of 400 companies across the UK.

5. Access to industry experts

As a member, you'll gain access to our network of industry professionals, offering invaluable insights to help shape your organization's growth and engagement strategies. You'll also benefit from the expertise of OEUK's technical specialists, who are leading the way in new policies, technologies, and innovative work practices—all available to our members only.

6. The chance to inform government policy

Your membership gives you the opportunity to shape key policies on the issues that matter to your organisation. Work with industry and OEUK experts to develop powerful facts, connect with key policymakers and inform understanding.

7. An industry voice

Help set the agenda for the sector through shaping and supporting OEUK's campaigns. Members get priority to sit on our panels, present at conferences and write guest opinions as part of our sector-wide publications.

8. Contribute to OEUK's award winning guidelines

As a member, your expertise will help shape these good practice guidelines and inform the way we set the standard globally. Our guidelines are world-renowned for being best in class – and it is our members who create them.

9. Intelligence on political and economic trends

We pride ourselves on being well informed on trends and upcoming changes in the broader sector and as a member you will benefit from a wealth of shared knowledge.

10. Access to our office space in London and Aberdeen

Members have access to our member networking areas and where possible, we can facilitate the use of our meeting rooms in central Aberdeen and the City of London. We can even offer you our offices to use for your own events at discounted prices, complete with on-site front of house support and refreshments.

Our members are our strength

Every member matters. Whatever and wherever your business, however big or small, you can benefit from being an OEUK member.

We have a membership category to suit all business operating in the UK

1. Type A: Operators and Developers

Available for exploration, production companies and developers, inc licence holders, wind developers and CCUS developers

- | | | |
|--------------------------------|---------|---|
| • Production Operators | £61,620 | corporations that operate production on the UK Continental Shelf (UKCS) |
| • Exploration Operators | £26,150 | corporations that operate licences on the UKCS, but which do not operate production |
| • Non-Operators | £8,950 | corporations with an interest in UKCS but with no operated licence or production. |
| • Developers | £7,000 | corporations with a lease (wind, ccus, hydrogen) |

2. Type B: Contractors

Available to any company offering goods and services to the offshore energy industry

Turnover Bracket	Fee
• Contractor >£100m	£31,250
• Contractor £50m-£100m	£20,250
• Contractor £25m-£50m	£12,250
• Contractor £10m-£25m	£8,250
• Contractor £5m-£10m	£4,100
• Contractor £1m-£5m	£2,200
• Contractor <£1m	£1,100

Are you a Micro Enterprise?

Please contact the membership team to discuss our offering to Micro Enterprise Membership.

3. Type C: Associates

Available to academic institutions, membership organisations and local government councils. This also includes those with a reciprocal membership. Associate members do not get a vote at AGM.

- | | |
|--|--------|
| • Associate Membership | £990 |
| • University/ academia Full Membership | £2,500 |

- Our member newsletter is the place to look for **updates on industry initiatives**, upcoming events and member-specific news.
- Members receive our **quarterly industry magazine**, packed with insights and topical features.
- Sign up to our **forums** to ensure you keep up with and shape what's going on in specialist topic areas.
- **Network** with your peers, **learn** from industry leaders, and **debate** key issues at our industry conferences, business breakfasts and seminars, receiving **35% member discount** off tickets.
- Participate in overseas delegations organised by œUK to introduce our members to **export opportunities** abroad.

The definitive source of information on the UK offshore energy industry

We produce a range of leading publications from reports and market intelligence to magazines and award-winning best practice guidelines. Members can access our library of guidelines free of charge.

Events

OEUK hosts a schedule of diverse, highly-regarded events around the UK for our members. From prestigious award dinners to technical conferences to sharing best practice and key lessons learned, there's something for everyone. Our leading events regularly attract key stakeholders from industry regulators, Government, and media and offer fantastic opportunities to network, debate a range of issues, share your expertise and learn from your peers.

Members benefit from **35% discount** on tickets, discounted exhibiting opportunities, and are given priority for speaking slots and discussion panels. A range of sponsorship packages are also available for you, offering that extra bit of coverage.

“A fantastic event by OEUK today with their annual Share Fair. We were delighted with the range of open and honest discussions regarding forthcoming projects in the UK offshore industry. It was also great to catch up with familiar faces too.”

Events schedule

Business breakfasts

A key feature in the calendar, our breakfast events kick-start the day with unmissable opportunities for learning, lively debate and networking. Breakfasts are scheduled throughout the year, regularly attracting 250+ guests in Aberdeen, and up to 100 at our venue in London. The broad range of topics covered at our breakfasts ensure that they always attract attendance from senior industry figures, influential members of the local business community, media, local and national politicians.

Conferences, Seminars and workshops

OEUK's packed schedule of industry conferences ensure that our members are kept informed of key regulatory change, giving opportunities for learning, sharing new technologies and discussing better ways of working. Members are given priority on speaking opportunities and discounts on exhibiting opportunities. Some of flagship events are listed below;

- Exploration Conference – London
- Oil & Gas industry Conference – Aberdeen
- Legal Conference – Aberdeen
- Wells Conference – Aberdeen
- Offshore Decommissioning Conference – St Andrews
- HSE Conference – Aberdeen
- Decarbonisation conference – Aberdeen
- Aviation Conference – Aberdeen

Awards Ceremonies

The Offshore Safety Awards organised jointly by OEUK and Step Change in Safety celebrates individuals and companies who go beyond the call of duty to make the UKCS one of the safest oil and gas basins to work in. With a unique learning and sharing format, the awards feature finalist award pitches, allowing the audience to decide who they deem to be the winner through an interactive vote.

The OEUK Awards is a well-regarded and highly prestigious event within the industry calendar that seeks to recognise the achievements of businesses and individuals across a number of different award categories. This black tie event is the highlight of awards season, and not to be missed. Members get discounted rates for tickets and tables.

Over 4,700 members have attended our events this year.

As a member of OEUK, you'll receive:

OPPORTUNITIES TO:

- Nominate a senior leader to OEUK's advisory council
- Raise your profile for your business and employees
- Speak at our events
- Arrange a site visit and PR opportunities

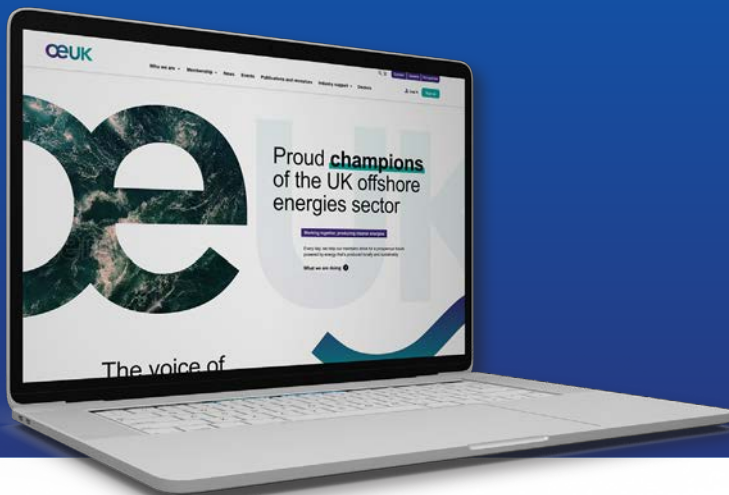

DISCOUNTS ON:

- Industry event tickets
- Exhibition spaces
- Advertising in our magazine

ACCESS TO:

- Our member-only forums and workgroups
- Award-winning good practice guidelines for free
- Our online Members Area
- Exclusive member only market-intelligence

FREE COPIES OF:

- LOGIC standard contracts
- OEUK Magazine to your office
- Monthly member newsletter

How to join / next steps

Speak to our membership team at membership@oeuk.org.uk for any queries you have about membership.

ONCE YOU'RE READY TO JOIN;

1. Complete and return a signed copy of your membership form to our membership team.
2. Attach a logo and short bio for our team who will welcome you to the membership on social media.
3. You'll receive a formal welcome from our team who will be in touch to arrange an induction meeting with you.

Our forums and workgroups span a wide range of specialist subject areas and are led by our team of experts.

Working together, we are a driving force of the UK's energy security and net zero ambitions. Our innovative companies, people and communities add value to the UK economy.

Join us today and help strengthen the UK offshore energy industry and your business.
