

Strengthen! Prepared to respond and recover

- 8.00 – 8.30 am **Registration, coffee and networking**
- 8.30 – 8.35 am **Welcome & Introduction**
Mark Wilson, Energy Operations Director, Offshore Energies UK
- 8.35 – 8.45 am **OEUK Keynote Address**
Dave Whitehouse, Chief Executive, Offshore Energies UK
-

SESSION 1 – Threat evolvment (OBSERVE)

Chaired by Graham Skinner, Health and Safety Manager, Offshore Energies UK

Our environment can be termed VUCA (volatile, uncertain, complex, ambiguous) and during this session we will set the scene and update on the physical and cyber threats that we are currently witnessing and the impact on the global energy landscape. The geopolitical situation continues to evolve around the world that is impacting the energy industry in a number of areas, a clear understanding of the credible threats to the UK energy industry ensure that we can start the planning process to build resilience.

- 8.45 – 8.50 am Introduction
- 8.50 – 9.10 am Dan Marks, Research Fellow Energy Security, RUSI
- 9.10 – 9.30 am Jonathan Smith, Cyber Security Business Unit Director, Sword
- 9.30 – 9.50 am **Beyond Safety: Understanding Security Resilience**
Polly Copeman, SVP Strategy & Operations, OpenHorizon
-

- 9.50 – 10.30 am **Refreshments break and exhibition visit**

SESSION 2 – Preparedness (ORIENTATE)

Chaired by Graham Skinner, Health and Safety Manager, Offshore Energies UK

The industry prides itself on its preparedness for a wide range of scenarios and during this session we will look at lessons learned from around the world in preparing for a wide range of threats. This will include where preparedness played a key role in mitigating the impact of a physical and/ or cyber-attack. Being prepared ensures that we have a resilient approach to security and allows us to adapt/ orientate our position as the threats evolve.

10.30 – 10.35 am Introduction

10.35 – 10.55 am Callum Neary, Associate Director, Deloitte

10.55 – 11.15 am Botan Osman, CEO & Co-Founder, Restrata

11.15 – 11.35 am **Are You Really Resilient for Digitalising Infrastructure (ReDI)?**
Jane Wright, Research Engineer, University of Strathclyde

11.35 – 12.00 noon **Panel Session**

- Scott Keenon, Head of Operational Technology, Sword
- Botan Osman, CEO & Co-Founder, Restrata
- Polly Copeman, SVP Strategy & Operations, OpenHorizon
- Callum Neary, Associate Director, Deloitte
- Dan Marks, Research Fellow Energy Security, RUSI

12.00 – 1.00 pm **Lunch, networking and exhibition visit**

1.00 – 1.30 pm **Post lunch energiser**

Join us to get even more energised as we have a conversation with Steve Hill, Independent Board Risk Adviser and Mark Wilson, Energy Operations Director at Offshore Energies UK. The session will include questions from the floor, on the subject of how the geopolitical landscape translates into specific threats with a focus on the energy sector. This will then look at the cyber threats your organisation might face, including governmental/policy actors, organised criminal groups, political activists, and insiders. Finally, the conversation will address how we should be assessing and mitigating these fast-evolving risks

SESSION 3 – Response & recovery (DECIDE and ACT)

Chaired by John Watson, Senior HSE Advisor: Supply Chain, Security & Emergency Response, Spirit Energy

There will be occasion when we require to respond to threats that have materialised and ensure that we can also focus on recovery. This session will provide learnings from real life response and recovery arrangements supported by good practice to support the range of threats that we could have to respond to.

1.30 – 1.35 pm	Introduction
1.35 – 1.55 pm	Andrew Buxton, Chief Operating Officer, Dardan Security
1.55 – 2.15 pm	Superintendent Simon Reid, Partnerships, Preventions, Interventions & Events, North East Division, Police Scotland
2.15 – 2.35 pm	Martin Smith, Managing Director, CyberPrism

2.35 – 3.00 pm **Refreshments break and exhibition visit**

SESSION 4 – Lessons learned (OBSERVE : LEARN)

Chaired by John Watson, Senior HSE Advisor: Supply Chain, Security & Emergency Response, Spirit Energy

Going full circle, we could back to the observe aspect, however in this session the focus will be on what we have learnt and what is coming towards us that we require to ensure we factor into our own intelligence cycle. This session will ensure that we are armed with the latest thinking to ensure that we can proactively build resilience into the industry's approach to physical and cyber security.

3.00 – 3.05 pm	Introduction
3.05 – 3.25 pm	<i>tbc</i>
3.25 – 3.45 pm	<i>tbc</i>
3.45 – 4.05 pm	Dane Clackworthy, Director UK&I, Waterfall

Panel Session

Chaired by John Watson, Senior HSE Advisor: Supply Chain, Security & Emergency Response, Spirit Energy

The panel session will focus on bringing together some of the key security themes from the day and allowing those attending to raise questions and interact with a panel of experts. The outcome of this session is answering some of the questions that will have emerged throughout the day allowing clarification on areas of focus and future action.

4.05 – 4.35 pm

Panel Session

- Andrew Buxton, Chief Operating Officer, Dardan Security
- Martin Smith, Managing Director, CyberPrism
- Dane Clackworthy, Director UK&I, Waterfall
- Jonathan Smith, Cyber Security Business Unit Director, Sword

4.35 – 4.45 pm

Vote of thanks
